

Greetings,

It is important that we convey the right pictures. We must learn how to communicate clearly. We must tell our story in the language of faith, our mother tongue, which is the language of God.

God Shortcuts the System

Communicating God's Word is the sending of knowledge from one person to another. Paul wrote in Philemon 6: That the communication of thy faith may become effectual by the **acknowledging** of **every** good thing which is in you in Christ Jesus. The knowledge we communicate is in words we form to make pictures in another person's mind. **We speak words of knowledge sending believable pictures.**

God understands all languages but speaks in none of them. God shortcuts the system and **does not** go through our ears with words to make pictures. He starts by putting the picture directly into our mind. When God speaks, you do not hear words - you see a picture. When you see the picture God put into your mind, you then think the words in your language that describe the picture God wants you to see.

When God puts this same picture in another person's mind in a different country, that person's mind thinks the words in his language that describes the same picture. To avoid our misunderstanding of words God gives us a direct picture. Then it is clear in our mind what He wants us to see.

God speaks in visions and dreams. You can then go to the Bible printed in your native tongue and confirm that God spoke to you through a vision or dream, a picture. The Bible becomes the **second witness** to what you received from God. You can believe it.

There are some words spoken by God in which a wayfaring fool need not err. God speaks words that are so easy to understand that they make wise the simple. A man who cannot read or write can get the picture God wants him to see because God doesn't communicate in the languages of the world. He goes straight to the heart with a picture, a picture of the cross.

God's picture shows to the man who cannot read and write **His love** for him. The picture of the cross allows the **least of all** to perceive the love God has for him. And the picture does it to the man who cannot read or write. That's awesome! Praise God! Thank You Jesus. For God "so loved" the world. Get the picture! **Praise God** for the **picture** that lets you perceive **the love** God has for you.

Acknowledge. Speak your faith in a way that men may see Christ in all. We should continually, as an individual, look for a better way to show Christ to the world. Wisdom for learning says there is always a better way because nothing is perfect.

Work on their knowledge. This is their conscience. Reprogram their conscience. Teach them God's Word. Make them a believer. Effectually communicate your faith by acknowledging Christ in all things.

God Made His Way a Simple Way

There are words that all men can understand like water or fire. If I want to reach the world in a simple way and tell them about Jesus, I need to think which words I can use to make a clear picture. Most Bible words are of this nature. Quote a scripture and the angels will help you. They are standing by to perform God's Word when it is spoken (Psalm 103:20).

Say His Word. It is light and will make itself clear with the inspiration of God that is in it. God speaks words that are the foundation of our language of faith. He did this even from the start. Imitate God. Speak His Word using the **same words** He used. That is **the language of faith in its purest form**. It can get no purer.
