

Greetings! Save this one ~ Read it often.

Thoughts are lighted pictures. When it's dark in your mind think with lighted pictures. This is how you make yourself the man you see in the mirror of James 1:23.

God has so designed man that with one good thought He can energize him if the man will let Him. You never get so big that you don't need God.

Man is an emotional creature. The thoughts he thinks creates the emotions he feels. A happy man is thinking happy thoughts. A sad man is thinking sad thoughts. A man who is afraid is thinking scary thoughts. A confident man is thinking scripture thoughts. Every man should recognize this and take advantage of it. Think scripture.

The mirror is for the just.

The Bible is the mirror James spoke about in James 1:23. Man can see himself clearly in God's word. This is why people break and go to the altar of prayer. They are convicted of the way they are living.

This mirror is for the just. There is always more to do for God on **the apostolic cutting edge**. His mercies are fresh every morning to meet our needs on this new **cutting edge** of life. His mercies bury our past behind us **under the Blood**. Don't hold on to your past. Forget the things that are behind you and press toward the prize. **Be obedient.**

Make the thoughts of yourself ~ picture perfect ~ according to the scriptures. You have an inalienable right **to win the lost**. Take a second chance. Do it again. Dress your mind for the occasion. Get bold and go for it. You will be glad you did. God will reward you for it.

Above everything you know do not forget God's Grace. It is not His Will that any should perish. The one you think is the worst sinner on earth is still worth more than all the world because of the value of his soul. Do this ~ Think of a family member who is far from God. Go visit them with the **Grace of God** in your mind.
